

QUALITY POLICY

Park Gate & Company Ltd provides a comprehensive electrical service including;

- Sales of Electric Motors and Electrical Control Equipment
- Repair of Electric Motors and associated equipment
- Design, Manufacture and Installation of Electrical Control Panels
- Design and Installation of Electrical Systems

The Directors are committed to achieving and maintaining the highest standards of workmanship in order to meet or exceed the best expectations of customers, by understanding and being responsive to their requirements either stated or implied.

Park Gate uses a Quality Management System compliant with BS EN ISO 9001 to help in the achievement of their aims. The Company is committed to complying with the requirements of this standard and to continually improve the effectiveness of the Quality Management System.

Park Gate monitors its quality performance with regard to;

- Completing orders within agreed timescales
- Ensuring orders conform in all respects to specification
- Providing goods and services free of any problems

All within Park Gate are encouraged, on an ongoing basis, to contribute to the achievement of the aims and objectives set by the Company.
